PUNJAB SAFE CITIES AUTHORITY, LAHORE
Request for Proposal (RFP)
Environmental Impact Assessment Consultant

The Punjab Safe Cities Authority (PSCA), established under the Punjab Safe Cities Ordinance 2015, will ensure establishment, development and maintenance of an integrated command, control and communication (PPIC3) centres for Police in major cities of the province for public safety. The Safe City is a concept for returning security and quality of life to today’s complex cities through the use of technology, infrastructure, personnel and processes.

Punjab safe cities authority (PSCA) intends to hire the services of a qualified, experienced and competent environmental consultant Individual/firm for preparation of Environmental Impact Assessment (EIA) reports and obtaining approval from EPA Punjab for Punjab Police Integrated Command, Control & Communication (PPIC3) centre Lahore project.

Profile of the Consultant:

The consultant should have at least 10 years of experience in Environmental Projects or related field:

- Master’s degree in Environmental Studies or related Sciences;
- Demonstrated capacity in providing advisory services at senior levels, with counterparts predominantly at strategic/management level;
- Experience of urban Environmental Impact Assessment in projects of complex nature;
- Excellent communication and influencing skills to effectively engage and coordinate with a wide range of stakeholders.

Scope of Services and Deliverables:

The Consultant will prepare EIA reports of the project meeting the requirements of Government of Pakistan. The Consultant will be responsible for obtaining NOC from EPA, presenting the EIA in Public Hearing and addressing all the queries raised by EPA.

The Consultant shall render not limited to the following services:

- Survey of the proposed project area;
- Collection of available data, drawings and all relevant information about proposed project;
- Review of applicable existing Environmental Legislations, Standards and Policies;
- Review of the available data, drawings and reports to ascertain its adequacy and need for collection of additional data (if any);
- Environmental Monitoring of ambient air, noise water quality;
- Establishment of baseline environmental conditions;
✓ Evaluation of potentially positive and negative impacts due to proposed project construction & operation;
✓ Collection of socio-economic data;
✓ Conduct public consultation and stakeholders meeting;
✓ Proposed mitigation measures to eliminate or reduce the negative impacts to an acceptable level;
✓ Preparation of Environmental Management Plan (EMP);
✓ Preparation of Environmental Impact Assessment (EIA) Report; and
✓ The consultant will be responsible for obtaining the NOC from the relevant government departments/ agencies and ensure compliance of all such laws in effect
